Dear CRDP Cardholder:

The Chronic Renal Disease Program (CRDP) reviews your prescription medications, which pharmacy you use, and how to get more savings when recommending a Part D plan. According to our records, you have not used your CRDP card within the last twelve months to purchase prescription medications. Therefore, at this time, we are not able to determine the best Part D plan for you and will not be enrolling you in Medicare Part D for 2022.

However, since the CRDP offers a limited formulary, the prescription coverage you receive from CRDP is not equivalent to the prescription benefits offered by Medicare Part D, which means CRDP is considered “non-creditable.” This means it may be in your best interest to be enrolled in CRDP and a Medicare Part D plan together.

When you become eligible for Medicare, if you do not have any prescription coverage that is considered creditable, you should enroll in a Medicare Part D plan. Otherwise, you may pay a higher premium to join a Medicare drug plan later. If you go 63 days or longer without prescription drug benefits that are at least as good as the coverage offered through the Medicare benefit, you will have to pay a 1% penalty on the monthly Part D premium for every month you go without coverage.

If you already have a Part D plan, you may remain enrolled in that plan or switch to another plan. If you would like more information on our partner plans for 2022, you may call us at:

We will provide the Part D plan listed above with the necessary information to process your enrollment. You will then receive an identification card directly from the Part D plan. - cubriremos los copagos para los fármacos incluidos en el formulario de SPBP.

Dentro de los próximos meses, es posible que reciba un paquete de reinscripción de parte de SPBP. Es importante que complete y envíe su reinscripción al SPBP a tiempo para asegurarse de que el subsidio de prima de la Parte D y todos los beneficios del SPBP continúen. El SPBP no podrá pagar las primas de la Parte D si sus beneficios de SPBP son cancelados en cualquier momento. Si usted no se reinscribe o si se lo da de baja del SPBP durante el período de inscripción de la Parte D, deberá seleccionar por su cuenta un plan de la Parte D e inscribirse en este, o es posible que permanezca sin cobertura de medicamentos con receta durante el año entrante. No perderá los beneficios del SPBP al inscribirse en la Parte D de Medicare.

Le proporcionaremos el plan de la Parte D que se indica anteriormente con la información necesaria para procesar su inscripción. Luego, recibirá una tarjeta de identificación directamente del plan de la Parte D. Cuando tenga recetas emitidas a partir del 1 de enero de 2022, deberá mostrar al farmacéutico su tarjeta de la Parte D y su tarjeta de SPBP. No deberá efectuar ningún pago al plan de la Parte D, ni siquiera en concepto de deducciones del seguro social ni de libreta de cupones de pago, sin antes consultar con el SPBP.

**Si no está inscrito en Medicare o si cuenta con algunos de los siguientes planes, llámenos de inmediato al 1-800-225-7223:**

- **Plan para jubilados que ofrece beneficios de prescripción de recetas médicas** (la Parte D podría afectar negativamente sus beneficios médicos).
- **Plan Medicare Advantage (Organización para el mantenimiento de la salud [HMO]/Organización de proveedores preferidos [PPO])** (la Parte D podría afectar negativamente sus beneficios médicos).

Si está de acuerdo con nuestra recomendación, no tiene que hacer nada más. SPBP se encargará de la inscripción por usted. Si no desea inscribirse en la Parte D de Medicare o si prefiere inscribirse en un plan diferente de la Parte D de Medicare, deberá notificarnos antes del **1 de noviembre de 2021**, llamando al:

Según nuestros registros, usted está inscrito en un plan de la Parte D de Medicare que no será un plan asociado al Programa de Beneficios Farmacéuticos Especiales (SPBP) en 2022.
