Harrisburg, PA 17112

Now There is a Way

to keep your head above rising
prescription drug costs.

**PA Patient Assistance
Program Clearinghouse**

Tom Corbett, Governor

Brian M. Duke
Acting Secretary of Aging

Are you one of the many Americans who are faced with the need for prescription drugs... and have no benefits?

One in four Americans-roughly *70 million* people-cannot afford insurance covering prescription drugs. Sadly a large number of those affected are individuals who, due to injury or illness, are unable to work and are on fixed incomes. They are forced to risk their health by sharing drugs, skipping doses, or doing without vital medication altogether just to make ends meet.

There is Relief in Sight

Wouldn't it be wonderful if there was a way to get some--or all--of the prescription drugs you need at little or no cost to you? If you do not qualify for any state- or federally-funded programs and you cannot afford prescription insurance, we may be able to help.

If you are among the growing number of Pennsylvanians who feel that they have nowhere to turn because they simply do not have enough money to cover skyrocketing prescription costs, there is finally a solution:

The Pennsylvania Patient Assistance Program Clearinghouse.

Through this innovative program the Pennsylvania Department of Aging is working to help those who qualify to drastically reduce or eliminate the cost of their medication, giving them peace of mind in knowing their prescription needs will be met.

Do I Qualify?

To participate in the program, you must:

- be a Pennsylvania resident
- not be a participant in any other state- or federally-funded prescription program
- not have other prescription insurance (However, if you have Medicare Part D, we may be able to assist you during the coverage gaps.)

Our Service Does Not Stop There

When you work with us, you are not dealing with just another agency--you are making a new friend. You see, we help people in many different ways because our patients come to us with so many different needs. In fact, in getting to know you, our patient coordinators can often suggest other programs that may be beneficial to you, the members of your family, and your friends.

**We are proud of the work we have done for those in need.
Let us help you, too.**
